OUR RANGE 2023

DISCOVER OUR WHOLE PRODUCT RANGE!

Look forward to unique know-how as well as all rod innovations for the coming season.

Fascination of Fishing – made by Sportex

Check out our brand new e-catalog online. You will find all new products in detail and lots of additional, useful information on blanks and components. With plenty of pictures and rod illustrations that show every angle of the rod you want to check! All that and a lot more at emag.sportex.de.

It is always an enormous pleasure to produce the SPORTEX catalogue for our followers. But it is also impossible to show our entire portfolio here. So please visit our website for more products and further details.

In addition to our latest catalogue, at www.sportex.de you will find the complete SPORTEX range – from rods and landing nets, to bags and clothing and various accessories. Thanks to the practical search function, you

won't be fishing around for long; instead we'll direct you to the perfect product. Simply select your desired target fish and you'll be led to the most appropriate models alongside useful tips and tricks.

You can also register online for our 10-year blank guarantee – it's quick and easy. For useful tips about your new rod, please use the FAQs. And of course you can also quickly find your nearest SPORTEX dealer.

You should also know: we have a number of exciting videos featuring all the new products from a few very long and rewarding shooting days. Find them on our website, on our YouTube channel #SportexRods or on our Instagram account at [sportex_germany](https://www.instagram.com/sportex_germany)

emag.sportex.de

Nothing compares to a SPORTEX rod: they owe their legendary reputation to their unique innovative power combined with outstanding technology. Our products stand for absolute reliability, the highest possible quality and masterly craftsmanship, and they have been setting standards worldwide for more than 70 years.

Today we can proudly say that SPORTEX rods have shaped generations of anglers. But we believe progress never stops. You either ride the current or you get swept away with the tide. That's the SPORTEX way.

We are the benchmark in rod building! To this end we work every day with the very best materials, great craftsmanship, a special eye for detail... and a smile on our face. You can rely on it.

Your SPORTEX Team

Rod action

Extra Fast:

the blank primarily flexes in the upper third of the tip section. Further down the blank features a strong backbone.

- Sensitive bite detection
- Powerful and long distance casting

Fast:

the entire tip section of the blank flexes. The butt section offers a strong backbone.

- Sensitive bite detection
- Powerful and long distance casting

Medium Fast:

the rod flexes from its tip nearly down to the middle of the blank. The butt section offers a strong backbone

- controlled hook setting even on longer distance
- large distance casting possible

Medium:

the rod flexes from its tip all the way down to the middle of the blank. The butt section offers a strong backbone.

- controlled hook setting even on longer distance
- large distance casting possible

Slow Medium:

the blank flexes from its tip all the way down to just about the handle section.

- very healthy balance of power and best for fighting large fish
- excellent shock absorption even in close-up range

Slow:

the entire blank evenly flexes from its tip down to the handle and is quite soft.

- very healthy balance of power and best for fighting large fish
- excellent shock absorption even in close-up range

SPORTREX BEYOND

REVOLUTIONARY ROD SERIES WITH OUTSTANDING CAPABILITIES.

BEYOND SPIN

The blank has a semi-parabolic action and incredible speed. The unique heptagonal blank shape means that, when casting, the blank cannot veer to the left or the right. In other words, your bait is always

exactly on target. The Beyond Spin also makes no compromises when it comes to staying connected with the bait. Every contact with the bottom, every patch of weed and every bite is passed straight to the angler. These unique rods make for simply sensational fishing.

Available in lengths from 8ft. to 10ft. and casts from 20 to 80g.

HEPTACORE

SPORTEX REVOLT

UNIQUE SPEED AND SENSITIVITY COME AS STANDARD.

REVOLT SPIN

Just like their 'big brothers' in the BEYOND Spin Series, the Revolt Spin rods feature our trailblazing 7-sided Heptacore blank. They also boast maximum possible speed, optimum loading/acceleration, extraordinarily good sensitivity and enormous reserves of power. Proof that they are genetically the same rods as the Beyond Spin models, only with a different configuration. Revolt Spin rods also feature SIC guides (K-Style), a specially finished FUJI TVS reel seat, a removable FUJI hook keeper, and ergonomically designed Duplon handles. All Seatrout models are fitted with a full-cork handle.

Available in lengths from 7ft. to 10ft. and casts from 20 to 80g.

SPORTEX AIR SPIN RS-2

LONG-CASTING MIRACLE WORKER.

emag.sportex.de

AIR SPIN RS-2

Fantastic loading, excellent resetting capacity and unique sensitivity. Anyone who experiences this superb spinning rod in action immediately feels its inherent potential. The newly-developed lightweight Helicore blank made of T1100 carbon fibres and special epoxy resin with innovative nanoparticles makes for maximum agility and stability. Then there's the high-end fittings, including slim FUJI TORZITE guides, specially designed reel seats and high-quality natural cork or Duplon handles. In addition, the handle section contains the tried, trusted and perfected SBS (SPORTEX Balance System), with three different inter-changeable weights. This means the rod always sits perfectly balanced in the hand for long periods without strain or stress. And the innovative 'Fishscale' blank finish is a treat to see and feel. In short, an absolute dream for hardcore spinning anglers who place particular value on long, accurate casts.

Available in lengths from 8ft. to 10ft. and casts from 15 to 80g.

SPORTEX GRAPHENON SPIN

THE ULTIMATE POWER COMBINATION OF HIGH-TECH CARBON AND GRAPHENE.

GRAPHENON SPIN

The lightweight Graphenon Spin offers huge power deployment, good resistance when playing fish and long, precise casting.

Add excellent bait 'feel' and sensitivity, together with a progressive action,

and these rods make the perfect companion on the water. The Ultra Light model is specially designed for very small lightweight baits. It comes with a super-sensitive tip that ensures every bite is transferred straight to the handle. The rods in the series are fitted with FUJI-TVS reel seats, FUJI-KL /KT-SIC guides and tough, ergonomically-designed Duplon handles. The Seatrout models are fitted with full cork handles. This is our high-tech premium rod series – and everything you could ask for!

Available in lengths from 7ft. to 10ft. and casts from 10 to 60g.

SPORTEX TIBORON RS-3

CLASSIC PREDATOR ROD WITH MODERN STYLING.

NEW

emag.sportex.de

TIBORON RS-3

Traditional qualities and innovative design all in one: when we came to review these well-loved spinning rods, there was no compromising on high-end materials.

We treated this already successful series to an upgrade with our high-performance Helicore blank made of T1100 carbon fibre. For an inspirational surface finish, a modified version of the fishscale technology came into play, found in our AIR Spin RS-2 models. The handle section above the FUJI VSS reel seat is also made of tough lightweight 3K carbon. The action of the TiBoron RS-3 has deliberately been made somewhat stiffer than before, so as to meet the demands of modern lure fishing. And the rods are of course ideally suited for everyone who wants to get specimen pike and perch on the line with wobblers, blinkers, spinners and the like.

Available in lengths from 7ft. to 10ft. and casts from 0,5 to 60g.

SPORTEX NOBUN SPIN

HIGH-END PERFORMANCE RIGHT DOWN THE LINE.

NEW

emag.sportex.de

NOBUN SPIN

Here's the missing piece of the puzzle for all those pike and perch anglers who set their standards high. Anyone looking for the ultimate weapon for taking on predators need look no

further; these exceptional rods are the ultimate answer! At the heart of the rod is our super fast and super tough Helicore blank made of T1100 carbon fibres and special epoxy resin. Thanks to their unique combination of FUJI titanium guides, carbon reel seats and carbon grips, Nobun Spin models are extremely light and fit perfectly in the hand. The extra fast action gives that touch of seductive life to every lure and creates a direct connection with the fish. Whether it's jigging, vertical or lazy (sometimes called sink and draw) fishing, the slightest movement or touch of the lure can be felt from the tip right into the handle. And that means you're the master of the situation, at all times. This power set-up is rounded off by a stellar casting and playing performance, which makes for a spectacular fishing experience every time and everywhere.

Available in lengths from 7ft. to 9ft. and casts from 20 to 60g.

SPORTEX CARAT GT-S

TOP-CLASS SPINNING ROD JEWEL WITH PERFECT FINISHING TOUCHES.

CARAT GT-S

Fast, modern, and powerful – these are the key features of the completely upgraded Carat GT-S series. Thanks to the use of our latest T1100 Helicore blank, with special epoxy resin and nano-materials, these rods are even more impressive than the previous version, with better loading characteristics when it comes to long casts calling for real precision. In addition, we have succeeded in improving the rod's fine sensitivity, with the tip immediately signalling every fish contact. Ergonomic 3K split handles round off the innovative appearance and, together with the fast action, guarantee extremely direct transfer of the bite right down to the handle. Other top quality features include Seaguide SIC guides in K style, a carbon DPS reel seat with FUJI hoods, and a Seaguide 'D-Hook' hook keeper. An extraordinary series of rods for scoring success on the water.

Available in lengths from 7ft. to 10ft. and casts from 0,6 to 70g.

SPORTEX GENIUM

A GENIUS ALL-ROUND ROD FOR hardcore predator anglers.

GENIUM

Here is the complete rod for the ambitious spinning angler – with a touch of genius.

When we developed the new Genium Spin series, our aim was to provide a spinning rod that was extremely thin, fast and tough. The result is a precision design that makes the pursuit of predator fish with wobblers, soft baits, blinkers or spinners a pure pleasure. The featherweight blank, made of top quality Japanese high-performance carbon, has a fast, semi-parabolic action and excellent loading characteristics that make it a gem to use.

Add to that, impressive casting capacities and immense reserves of power in the backbone, as well as outstandingly good damping ability and extraordinarily high sensitivity, and this rod has everything you could wish for when it comes to guiding the bait and sensing a bite. The technical and visual highlights include an ergonomically-shaped 3K split carbon handle and newly developed, extremely light, high-end carbon guides. All models come fitted with a super robust Seaguide XSS reel seat and the innovative Seaguide 'D-Hook' hook keeper.

Available in lengths from 7ft. to 9ft. and casts from 2 to 80g.

SPORTEX CAPTOR RS-2

LONG-DISTANCE LIGHTWEIGHT.

CAPTOR RS-2

What a power package! The second generation of our Captor series is extremely light and impressive with a superbly balanced action.

The slim, rapid semi-parabolic blank, made of Japanese high-performance

carbon, has fantastic casting properties which make any spinning fan's heart beat faster. The perfect loading and excellent resetting capacity make casting with these rods an event to remember. Naturally, there is sufficient strength in the backbone to land every fish on the hook safely and securely. And thanks to the sensitive transfer of the bite, the famous 'tock' of the bait can be felt right up to the handle. Add top-quality fittings with Seaguide SIC guides, FUJI DPS reel seats, and Seaguide D-Hook hook keepers, and the result is 'spinning to perfection.'

Available in lengths from 7ft. to 10ft. and casts from 10 to 80g.

emag.sportex.de

SPORTEX BLACK ARROW G-3

FAST-PACED POWER RODS FOR MODERN PREDATOR FISHING.

BLACK ARROW G-3

Thanks to the use of our high-tech T800 Carbon blank, with special epoxy resin and nano-materials, we have been able to improve speed and sensitivity even further in comparison with its predecessor.

What's more, the handle has been reinforced with the help of innovative 4X Cross technology. This gives the new Black Arrow enormous power when the fish is being played, and brings even hard-fighting specimens well under control. The increased reset capacity of the blank allows for long casts with absolute precision, and without major effort. In addition to the already famous spin and ultralight models, there are now two Musky Baitcast models available. These have been developed especially for the needs of modern musky and pike fishing using large lures. Thanks to the powerful backbone, even big heavy lures such as Bull Dawgs can be cast for hour after hour. The two new street fishing models are intended for use in urban settings, such as harbours, canals, narrow rivers and so on, where there is no room for compromise. For better handling they come with a telescopic, adjustable rear handle. The special Uptide models allow for continuous action with uninterrupted power transfer when playing the fish. It's the perfect rod for modern finesse techniques when going after trout, perch and similar species. Available in lengths from 6,3ft. to 10ft. and casts from 0,5 to 260g.

SPORTEX HYDRA SPIRIT

A REAL PERFORMANCE MONSTER.

emag.sportex.de

HYDRA SPIRIT

Lightning fast and uncannily powerful, our completely upgraded series now packs even more quality, with a new look and new blank, but still the tried and trusted heritage. Thanks to a uniquely developed highly-modular carbon material,

the rod is now even slimmer, but strength and speed have not been sacrificed. A clear, fierce action makes it really difficult for any hooked fish to escape when it's being played. And, of course, when it comes to fine sensitivity and casting capability there's nothing more to ask for. Top-quality fittings include a superbly robust FUJI DPS reel seat, high-quality SIC guides from Seaguide, and an innovative Seaguide D-Hook hook keeper. And best of all, there is a wide range of fantastic models available for every requirement, starting with classic spinning fishing, through twitching and jigging, to trolling. And for all fans of exciting kayak fishing we have a dream come true with the HY2203 version, built to take predators from close up. Time for some monster fun on the water!

Available in lengths from 7ft. to 9ft. and casts from 10 to 80g.

SPORTEX CURVE RS-2

HOLDS THE LINE, ALL THE WAY THROUGH.

emag.sportex.de

CURVE RS-2

Light, dynamic, and timelessly elegant. When we upgraded this popular series of rods, we used a special and extremely high quality carbon material, which in particular improves resetting speed and acceleration when casting. In addition,

the carbon fibres have more tensile strength, which gives the extremely slim blank perceptibly more power reserves in the backbone than previously. This means that specimens can be more easily kept away from obstacles when being played, and can be brought to the net more quickly. Thanks to their lightweight structure, the rods lie very balanced in the hand, and make for hours of fatigue-free fishing. Among the top quality fittings are a single Duplon handle with VSS reel seat, high-quality SIC guides, and an innovative D-Hook hook keeper from Seaguide. Anyone on the lookout for an inspiring spinning rod with superb medium-fast action need look no further!

Available in lengths from 7ft. to 9ft. and casts from 10 to 80g.

SPORTEX KEV NITRO

A FEATHERLIGHT AND HIGHLY EXPLOSIVE POWER PACK.

KEV NITRO

The use of Japanese high-performance carbon in conjunction with innovative aramid fibres, has enabled us to develop an entirely new and unique series of rods with features way in excess of their predecessors. The resulting rods are ideal

for modern pike fishing, with a semi-parabolic blank that is some 20 per cent faster, noticeably slimmer and considerably lighter. The newly-developed aramid fibres provide enormous tensile strength, something you can easily feel under high loading or on extreme acceleration. As well as this, thanks to modern HT cross-winding technology, the handle provides maximum stability for even more power when casting and playing fish.

All KEV Nitro models come fitted with top quality Seaguide SIC guides, stable FUJI DPS reel seats and innovative Seaguide 'D-Hook' hook keepers. A series of rods with no compromise, delivering the confidence that comes with maximum power and resilience, even in extreme situations.

Available in lengths from 8ft. to 9ft. and casts from 40 to 100g.

SPORTEX RAPID SPIN / DEADBAIT

NEW

IT CATCHES THEM ALL, FROM EEL TO PERCH!

RAPID SPIN / DEADBAIT

Produced with predator fans in mind. Following on from the outstanding success of our Rapid coarse rods, we now want to give all ambitious spin anglers the opportunity to enjoy the pleasures of this inspirational and powerful all-rounder. The top-flight blank,

made of Japanese high-modular carbon, has a stiff tip action, and has sufficient power reserves for reliably landing big fish. Adding to that, our cool fish camo design makes the Rapid Spin a visual winner too. And for natural bait enthusiasts we have developed special deadbait versions with casting properties that are pure genius thanks to the way they carry even chunky mouthfuls over great distances. As well as that, this special model has extra large SIC guides for using heavier lines or knots – and for good fishing even at colder times of the year, without any problems with ice.

Available in lengths from 6,5ft. to 11ft. and casts from 10 to 121g.

SPORTEX NOVA RS-2

THE NEW LIGHTWEIGHTS IN SPINNING.

NOVA RS-2 TWITCH

Catch success guaranteed! The rods in this completely upgraded series boast improvements in lightness and speed, the attributes that helped make their name.

The newly-developed blank was conceived as the optimum answer for successful hunting for trout, perch and similar species. Added to that are a fine, sensitive tip, a rapid action and plenty of damping in the backbone. An absolute top choice for use with wobblers, spinners, blinkers or softbaits – and a price-performance ratio that can't be beaten!

NOVA RS-2 JIG

The top choice for bait placement and fish-playing action. Anyone looking for a top rod in light to middle weight spinning will be impressed with this series. The newly-designed blank comes with a fast and somewhat harder tip area, so as to speed up the bait even better. The semi-parabolic action allows for optimum guidance. And the reserves of strength in the backbone allow for a secure and reliable strike. The perfect choice for both still and flowing water.

Modells: Twitch, Dropshot, Jig, Ultra Light, Vertical and Travel Rods. Available in lengths from 6ft. to 9ft. and casts from 0,5 to 60g.

emag.sportex.de

SPORTEX BLACK PEARL GT-3

MORE SPEED, STRENGTH AND SENSITIVITY!

BLACK PEARL GT-3

A modern, elegant look, more speed and strength, more sensitivity, and even better recovery: that's the Black Pearl! The rods' action has been designed especially with predator fishing in mind. In order to achieve the best possible casting performance, we have used high-modulus Japanese carbon for the blank. It means we have been able to make the rods even slimmer and faster, but without detracting from the blank's resilience. What's more, the butt section has been reinforced with a 4K carbon mesh fabric, which means that you can exert even more pressure when playing a fish. The Black Pearl GT-3 comes fitted with slim SIC guides, DPS or ECS (Baitcast) reel seats, and high quality Duplon handles. A perfect series when on the hunt for perch, trout, zander, pike and similar species. Also available as travel and ultra-light versions.

Available in lengths from 7ft. to 10ft. and casts from 2 to 80g.

SPORTEX MAGNIFIC FINESSE

ENORMOUS POWER AND RESILIENCE!

MAGNIFIC FINESSE

Very light and, above all, very sensitive rods for the widest range of finesse techniques. To make them we use our very latest Helicore blank, with T1100 carbon fibres and special epoxy resin (with the very latest in modern nano-materials). The action of the sensitive tip allows for very fine lines to be used, without any risk of snapping on a strike. The fish can take the bait without any noticeable resistance, which means they suspect nothing. The butt section comes with extra reinforcement in the shape of 4X-Cross technology, which gives the rods enormous power and resilience. The fittings of the Magnific Finesse are pretty spectacular too: FUJI SIC guides, FUJI VSS or ACS reel seats (Baitcast), the very latest D-Style hook keepers from Seaguide, and handles of high quality Duplon material.

Available in lengths from 6ft. to 8ft. and casts from 0,4 to 28g.

SPORTEX NEOWAVE

A LIGHTWEIGHT ROD FOR TRUE FANS.

NEOWAVE

This lightweight that makes a heavyweight impression. A bar of chocolate weighs about 100 grams. Our NEOWAVE tops the scales at a maximum of 78 grams. This unique series of rods takes the expression 'ultra light' to a whole new level – or rather, down to it. Developed especially for going after trout, perch and chub, it is a pure pleasure to fish with from the first second. The use of our latest T1100 Helicore blank with special epoxy resin and nano-materials allows for the creation of a super-slim structure - without losing any of the reserves of strength. The incredibly sensitive neon tip immediately signals every bite. And at the same time, thanks to a handle section reinforced by innovative 4X Cross technology, the rod has enough power to tame big fish that fight back. Among the visual and technical highlights are the extremely light titan guides and the minimalist lightweight reel seat. And as well as all this, all models come fitted with robust handles made of top quality feather-light Duplon material. It's the perfect rod series for giving new meaning to the idea of having fun when playing fish.

Available in lengths from 7ft. to 9ft. and casts from 0,1 to 9g.

SPORTEX SEATROUT XPERT **NEW**

THE GOLD STANDARD FOR PEOPLE WHO CHASE THE SEA TROUT.

emag.sportex.de

SEATROUT XPERT

Allow us to introduce a complete top-of-the-range rod series for the fish of a thousand casts. So as to present shy sea trout with different kinds of lures effectively at long range, the action of the lightweight finely-tuned blank has been especially matched for use with wobblers, blinkers and soft plastics. Thanks to the sensitive tip area, in combination with a powerful backbone, every strike connects securely and with full force. Anyone who prefers small blinkers and wobblers of between 8g and 14g will be well advised to go for the two seatrout finesse models. And for those who prefer hunting silver-barred types with Sbirolino, streamers or flies, we recommend the Spiro version, at 3.6m in length. As well as these, two baitcast models and an ultra-light variant are also available. The top of the range fittings for the Seatrout Xpert include resilient K-Style SIC guides, a robust FUJII DPS/ACS reel seat and a high quality Duplon handle.

Available in lengths from 7ft. to 12ft. and casts from 3 to 28g.

D-Hook hook eye and SIC guides

Fuji DPS/ACS Baitcast

SPORTEX JIG-XPERT

THE LURE CATAPULT WITH NO COMPROMISE

emag.sportex.de

JIG-XPERT

There will be no missed takes with this impressive series of rods. Designed with pike, perch and zander in mind, they cover the entire range of modern active fishing.

We have created an ultimate catching machine in all casting weight classes,

with real power at your wrist right from the start. The super fast JIG-Xpert blank made of Japanese high-performance carbon has outstandingly good casting properties for precise presentation, even at extreme distances.

JIG-XPERT PERCH

There are a lot of different methods for bringing our red-finned friends to where we want them.

Anyone who particularly wants to try their luck with small twitch wobblers, Carolina rigs, soft lures and the like will be on to a sure thing with the models in the Perch series. Fantastically fine sensitivity in the tip area really sets these models apart. No matter how cautious the nibble, it can be identified in a flash, and then comes the strike. The longer versions in particular feature an enormously wide range of use, and really earn the title of a true all-rounder. The ultimate tool for hunting stripy predators.

JIG-XPERT ZANDER

No other fish is targeted more often with the jig lazy or vertical method than the zander. Perfect contact with the bait, and that sensation of the classic 'tock' when it hits the bottom; these are the keys to success. We designed the blank for this series to be just as finely sensitive and ready to respond. The extra stiff action of the rods lets you feel every structure under the water, however small it may be, and then lets you strike precisely, even over long distances.

JIG-XPERT PIKE

Soft lures, wobblers, swim baits and blinkers... just some of the lures used in modern pike fishing. But not all the options can be covered by one rod, and the more specialised the lure is, the better the rod needs to be adjusted to it. Regardless of whether this involves vertical fishing or classic pike jigging, everybody will be happy with this series of rods. There's plenty of power at the tip so as to put the hook exactly in the right place Combined with a stiff spine, it puts you in the driving seat when it comes to playing the fish.

People who are fans of large pike fishing will also find this series exactly to their liking. With the JX2507 model we have come up with the ideal solution for fishing stationary big-baits.

This rod gets heavy lures flying way over the horizon, and those extra metres give that extra window of opportunity.

As well as that, these no-compromise power packages have top flight fittings in the form of high quality SIC guides in the KL/KT style, solid TVS or ACS reel seats, and robust split Duplon handles. Just genius!

Available in lengths from 6ft. to 9ft. and casts from 1 to 225g.

D-Hook hook eye

ergonomic reel seat

SPORTEX AVON DE LUX

ALWAYS READY FOR ACTION.

AVON DE LUX

With this new series of rods, we have developed a great all-rounder for float or bottom fishing. Avon rods are intended for use in still and running water, for predator and prey fish alike. They offer excellent performance when after pike or zander with dead baits, or when sitting out with fixed lead rigs or swim feeders for feisty barbel. The almost parabolic blank has a powerful backbone and a sensitive fast tip, which makes for a penetrating strike and secure hooking. The rods come with a natural cork handle, FUJI DPS reel seats, stable SIC rings and an aluminium hoods. A rod series for anyone looking for maximum flexibility on the water. Available in length 10ft. and 11ft. and cast of 100g.

SPORTEX TROWLER

TROLLING MADE EASY.

TROWLER

This is great fun for all large pike hunters. We developed this small but fine quality series of rods together with the Austrian specialists in lures and trolling, Mard Reap Fishing. The slim and fast blanks of these special sideplaner-rods were configured in the tip area in such a way that unintentional releasing of the line clip is prevented as much as possible. Thanks to the robust backbone, the strike can be set perfectly well. And these powerpacks are of course also superbly suited for casting with big baits of all kinds. The guide arrangement on the 2.25m version has been designed so that a fixed spool reel or multiplier can be fitted. It also includes a gimbal with a rubber cap. The two 2.65m models are only fitted with a rubber butt cap (no gimbal). As well as this, all three rod variants come with high-quality Seaguide SIC guides, super-robust ALPS DPS reel seats and innovative D-Hook hook keepers. The Big Mamas are going to have to dress up warm! Available in lengths from 7,5ft. to 8,7ft. and cast of 125g.

emag.sportex.de

SPORTEX LAKS

EVERY ONE A WINNER.

LAKS

Worth their weight in gold for all salmon hunters. This exclusive series of rods was developed especially for lightweight spin fishing for Atlantic salmon. The super fine and sensitive blank made of Japanese high-performance carbon conveys the bait activity directly into the handle. This means that any kinds of spinners, blinkers and wobblers can be guided perfectly. The parabolic action, in combination with a solid backbone, always provides sufficient power reserves during playing to fully absorb even the most aggressive struggles of fighting Salmonids. Among the top-quality fittings are a robust FUJI DPS reel seat, high quality SIC guides from Seaguide and an elegant 4A split cork grip handles. And, of course, these power rods also give nothing away when it comes to successfully stalking sea trout. Available in length 10ft. and 11ft. and casts from 8 to 32g.

emag.sportex.de

SPORTEX YOUNGSTAR

THE „FIRST“ FOR THE YOUNGER GENERATION!

YOUNGSTAR

The popular SPORTEX entry-level rod for the next generation. These spin rods have been developed especially for young anglers. To make overall handling easier, the back handle has been made shorter and a smaller reel seat put in place. And a lower proportion of glass in the high-modulus carbon provides the blank with higher resilience. The Youngstar boasts lightness, speed and toughness. And while it meets all their particular requirements of young anglers, it's also great for adults going after perch, trout etc. Length: 5,3ft. and cast: 20g.

SPORTEX COREGONUM

THE BIG HUNT FOR WHITEFISH STARTS HERE.

COREGONUM

When we were developing these two precision rods for successful whitefish fishing, we put the focus on creating extremely light, fast and sensitive models.

This was why we used Japanese high-performance carbon for the blank, which

allows for extreme loading and enormous speed, so as to be able to make a lightning-fast strike at any moment. Plus, the rods have the power needed to hold even fierce fighters, like char and sea trout, securely on the line. The top quality fittings include extremely light Minima guides, high quality cork handles and a robust DPS reel seat for the 2.1-metre version, or a slide reel seat for the 2.4-metre version for using a fixed spool reel or 'Wenderolle'. As well as this, the rods come with two extremely sensitive carbon fibre exchangeable tips, guaranteed to signal every bite. Every salmonid fisher's dream!

Available in lengths from 7ft. to 8ft. and casts from 3 to 25g.

SPORTEX HUCHEN DE LUX

THIS POWERFUL ROD SERIES IS DESIGNED FOR BIG FISH ANGLERS.

HUCHEN DE LUX

The blank incorporates the tried and trusted SPORTEX HT cross-winding technology, which provides improved stability and rapid reset performance.

The rods are fitted with best quality, natural cork handles,

along with extra large and stable guides that prevent problems with ring icing in the winter. The tip action allows for controlled bait presentation in the current, as well as penetrating strikes into the very hard mouths of Danube salmon. Thanks to the weight integrated in the handle section, the rod is perfectly balanced and easy to handle. The rod can also be used for heavy pike.

Available in lengths from 8ft. to 10ft. and cast of 150g.

SPORTEX PREDATOR LANDING NETS

QUALITY, THAT NETS THEM ALL.

PREDATOR LANDING NETS

- supersized predator landing net in highest premium quality • extra solid pole and frame made from aluminium
- 3 hoop sizes available: 60x50cm | 70x60cm | 80x70cm • extra power handle to guide even biggest catches safely into the net • must try from boat • handle extends and shortens in one simple action • folds away with a swift and robust mechanism for clever storage • knotless, low-odour, rubberized conservation netting • soft rubber grips • classy Sportex design

Available in hoop sizes 60x50cm, 70x60cm and 80x70cm.

SPORTEX X-ACT TROUT

SUPERLIGHT TROUT TAMER.

X-ACT TROUT

Our lightweight answer to the needs of the purist in pursuit of trout, char, perch and similar species. To prevent any interruption in the outstanding performance of the blank, which is made of Japanese high-performance carbon, all non-essential fittings have been avoided. This ensures sensitive bite transfer that is absolutely unequalled. No matter how slight the contact with the bait, it gets passed immediately to the handle section. This makes for a faster strike, which in turn means a noticeably better catch quota. In addition, the acutely sensitive tip also conveys every movement of the blinker, spinner or wobbler. That means no more worries about whether the bait is running properly – you can simply feel it! The perfect balance of the rod lets you fish for hour after hour without any sign of tiring. Top quality features include a robust SKS-style reel seat and high performance KL/KT-style SIC guides. The absolute benchmark for anyone expecting to stand often and long in the water!

Available in length 6ft. and 6,4ft. and casts of 10g.

SPORTEX X-ACT TROUT SPOON & SPIRO

X-ACT TROUT SPOON

This fantastic spinning rod was developed especially for using small spoons and soft baits. The extremely slim blank with X4-carbon mesh-reinforced backbone has a parabolic action, which very effectively absorbs even powerful attempts at escape. Fish weighing in at more than two kilograms can be rapidly brought to surrender. And thanks to the featherlight structure, these elegant power packed rods lie perfectly balanced in the hand. Among the top-quality fittings are high quality SIC guides from Seaguide, a slim VSS reel seat and a robust Duplon handle. The ideal choice for long hours of fishing action at the trout stream and elsewhere.

X-ACT TROUT SPIRO

This multi-function rod was specially developed for active fishing for trout in streams with fast retrieve or a more passive technique for bottom lures. The slim, lightweight blank is perfectly loaded and allows for long, precise casts even with long leaders. Thanks to the balanced parabolic action, even long hours of casting are free of fatigue. Then there's the powerful backbone, which can master even large fish with no trouble. There's nothing to match it for any Sbirolino fan!

Spoon is available in length 6ft. and 6,5ft. and casts from 0,2 to 7g / Spiro is available in length 12ft. and casts from 8 to 20g.

emag.sportex.de

SPORTEX X-ACT TROUT TREMARELLA

MAKES ALL TROUT TREMBLE.

NEW

X-ACT TROUT TREMARELLA

Shake and catch! These top quality ultra-balanced and super-sensitive rods were developed especially for professional Tremarella fishing in trout waters. The extremely light blank is designed in such a way that it transfers any vibrations from the handle directly from the highly sensitive tip area to the lure.

The low weight of the rod makes it easy to fish for a long time. And thanks to the excellent resetting capacity, different Spiriolinos can be cast with absolute precision to hit the intended target. The first-class fittings include a slip-resistant grip, robust slide reel seats made of metal, and high-resistance SIC guides, which prevent the wet line from sticking to the blank.

Available in length from 12ft. to 14ft. and casts from 2 to 19g.

SPORTEX MYSTIX TROUT

PERFECT RODS FOR TROUT ENTHUSIASTS!

MYSTIX TROUT

Makes every trout lose strength – and fast! Super sensitive and extra light, the Trout Area rod series offers fantastic casting performance. Designed for trout in both flowing and still waters, the continuous action of the carbon blank delivers extraordinary sensitivity right into the handle section. This allows even the smallest wobblers, twisters, spoons and soft lures to move seductively in the water. These rods also have a backbone strong enough to bring even the biggest and hardest-fighting rainbow trout to heel. They are fitted with high quality 4A cork handles and titanium AT SIC guides. Available in length 6,3ft. and 6,6ft. and casts from 0,6 to 7g.

SPORTEX XCLUSIVE TROUT

A REAL MAGNET FOR SALMONIDS.

emag.sportex.de

XCLUSIVE TROUT

Trout keep hanging on there – it doesn't matter what goes in the water, float, Spirolino, small artificial lures or Hegene techniques, these top-of-the-range rods cover a wide range of modern trout fishing. The slim lightweight blank, made of Japanese high-performance carbon, is amazingly sensitive and transfers every bite directly. And thanks to the powerful spine, every fish on the hook is under control in a flash. Added to that are top-of-the-range fittings, including a 3A natural cork handle, FUJI DPS reel seats, and special extra light low-friction guides. Available in length from 1ft. to 13ft. and casts from 10g to 30g.

SPORTEX XCLUSIVE FEEDER NT

EXKLUSIVE COARSE RODS.

XCLUSIVE FEEDER NT LIGHT

Perfect for lightweight feeder fishing with feeder basket at close and middle distances. Fun is guaranteed when playing roach, bream, tench etc. Also very good for fine bottom fishing for zander with small bait fish. Each rod comes with three sensitive carbon feeder tips in sizes 1oz, 2oz and 3oz.

XCLUSIVE MEDIUM LIGHT FEEDER

Ideally suited for light to medium-weight feeder baskets at close and middle distances, in both still and flowing water. This rod is at its best when fishing for roach, bream, tench and medium-sized carp. Provided with three sensitive carbon feeder tips in sizes 2oz, 3oz and 4oz.

XCLUSIVE MEDIUM FEEDER

These universal feeder rods are designed for medium-weight fishing for all non-predators in still and flowing water. The blank has excellent damping properties, minimising the possibility of escape when playing fish. A stiff backbone, with excellent loading capacities, propels the feeder basket to long distances, and quickly tires out fish. These rods cover the widest demands of feeder fishing. Comes with three sensitive carbon feeder tips in sizes 2oz, 3oz and 4oz.

XCLUSIVE MEDIUM HEAVY FEEDER

These rods are ideal for tackling hard-fighting barbel and carp in still and flowing water. They can also be used for eel fishing. Despite their enormous power, they still have the sensitivity needed to handle smaller fish as well. The high reset torque of the blank makes long precise casting effortless. They come with three sensitive carbon feeder tips in sizes 2oz, 3oz and 4oz.

XCLUSIVE HEAVY FEEDER

Designed for fishing with heavy feeder baskets, these rods guide the baskets precisely to their target without excessive effort and regardless of distance. The powerful backbone allows even extra-feisty fish to be guided securely out of the current and into the net. Provided with three sensitive carbon feeder tips in 3oz, 4oz and 5oz.

Available in lengths from 11ft. to 14ft.

SPORTEX XCLUSIVE BARBEL

THE ULTIMATE ROD FOR STRONG FIGHTING BARBEL.

XCLUSIVE BARBEL

The completely redesigned blank readily meets every challenge that modern barbel fishing can throw at it, including fixed lead attachment and feeder basket applications. With the two tips at 1.75lbs and 2.25lbs, it is fully equipped to tackle still and flowing water alike. Owing to the harmonious semi-parabolic action, the rod always provides enough power to bring strong fish out of the current and under control. Available in length 12ft.

SPORTEX RAPID SERIES

OUTSTANDING AND UNIQUE RODS FOR NON-PREDATORS:

RAPID FEEDER (Length from 11ft. to 14ft. Casts from 35 to 210g):

These exceptional rods, built using Japanese high-modulus carbon, are ideally suited for fishing with lightweight feeders at close and middle distances, in flowing or still water.

The high-speed spine makes for first-class casting performance and steers even big fish steadily and surely out of the current. In this series you'll find Rapid Feeder Light, Rapid Feeder Medium, and Rapid Feeder Heavy. A dream for all friends of feeder fishing!

RAPID FEEDER XS (Length 9ft. and 10ft. Casts from 35 to 210g):

This easy-to-fish short version of our popular feeder rod series comes into its own in restricted spaces, especially those with overhanging trees or high bushes. Thanks to the outstanding casting performance of the first-class blank, any feeders can be cast over amazing distances and with real precision – and that's despite the compact length of the rod.

RAPID FEEDER HEAVY „DISTANCE“ (Length 13ft. and 14ft. Casts from 120 to 210g):

The awesome power of these rods makes short work of long distances. The two completely upgraded models come with the same powerful blank and identical fittings as our Heavy Feeder versions. And for smooth line running without tiresome twists, the slim K-style SIC long-cast guides, with a 40mm first guide, are the perfect answer. From now on, there's a whole lot more in every cast.

RAPID PELLET FEEDER (Length 10ft. and 11ft. Cast of 56g):

Perfect for light-weight fishing with pellet feeders in flowing and still water. The fast and extremely sensitive blank, made of Japanese high-modulus carbon, allows for long casts and secure strikes. The excellent damping characteristics make it extremely difficult for a fish to escape the hook. Among the top quality fittings are stable SIC guides, a robust DPS reel seat, and the latest EVA handle. In short, everything you need for successful pellet fishing!

RAPID MATCH (Length 12ft. and 13ft. Casts from 8 to 20g):

The blank is a winner, with enormous sensitivity and speed in the tip section. That means spot-on accuracy with floats, even over longer distances. The impressive backbone ensures that even strong fish soon meet their match and end up securely in the landing net. The slim SIC guides have sufficient height to prevent wet line from sticking to the blank. And a little tip... the Rapid Match is way out in front for fishing trout streams too.

RAPID PELLET WAGGLER (Length 10ft. and 11ft. Cast of 28g):

The high-speed blank, made of Japanese high-modulus carbon, produces a progressive, continuous action which helps bring a hooked fish to the bank rapidly and under full control. Thanks to the rapid-reaction tip section, the strike is absolutely reliable, even at long distances. Expect extremely good damping, which prevents fish slipping the hook. The rods come fitted with stable SIC guides, robust DPS reel seats and somewhat shorter EVA rear handles.

RAPID MULTIPICKER (Length 10ft. Casts from 10 to 30g):

These slim and fast rods, have been developed for all kinds of fishing. The blank, made of Japanese high-modulus carbon, has extremely good casting characteristics, and enough power in the backbone to make playing the fish exciting and fun. The Rapid Multipicker comes with two complete highly-sensitive tip sections (picker & swing tip), which detect every bite, however slight. Other fittings include slim SIC guides, a stable DPS reel seat and a robust EVA rear handle.

RAPID FLOAT NT (Length 12ft. und 13ft. Casts from 10 to 35g):

The slim blank, made of Japanese high-modulus carbon, has a powerful backbone in combination with a fast tip, which makes for first-class casting performance. Not only that, these versatile power-packed rods are also ideally suited for hunting trout with floats or Sbirolinos. Even zander can be targeted with bottom lures or by floatfishing, with excellent results. In short: the perfect companions for anyone who wants to travel light and keep the targets varied.

RAPID STALKER (Length 10ft. Cast 2,00 and 2,25lbs.):

The blank, made of Japanese high-modulus carbon, has excellent damping characteristics for playing the fish. Every cast is superbly cushioned right down to the handle, which makes for first class fun when playing fish. Thanks to its compact format, the Rapid Stalker is also ideally suited for fishing from boats or in confined spaces. The top quality fittings include stable SIC guides, a robust DPS reel seat and a slim EVA rear handle.

SPORTEX GRAPHENON CARP

THE ULTIMATE POWER COMBINATION
OF HIGH-TECH CARBON AND GRAPHENE.

GRAPHENON CARP

The Graphenon Carp owes its impressive performance to its enormous power deployment and resistance when playing fish. It's always the rod - not the angler - doing the work. The excellent damping properties of the blank make the fish tire very quickly and reduce the risk of it getting away just short of the landing net. The rod's rapid reset capacity, in combination with great loading dynamics, also allows for very long and precise casting.

Technical Information

The name gives it away.... alongside carbon, we also use graphene as a major component. Graphene is a carbon modification with a two-dimensional structure. Each carbon atom is surrounded by three others at an angle of 120°, which creates a honeycomb pattern. It has the highest tensile strength of any previously known material (e.g. 125 times higher than steel). The rod blanks contain around 20% graphene, which makes a massive contribution to load capacity, speed and casting performance.

Available in length 10ft, 12ft and 13ft and casts from 2,75 to 3,75lbs.

Fuji-Reel seat

SPORTEX BEYOND CARP

A REVOLUTIONARY ROD SERIES WITH OUTSTANDING PROPERTIES.

BEYOND CARP

When it comes to casting long distances, there is just no ignoring these futuristic rods: thanks to their special new blank construction, you'll find yourself covering much larger areas with significantly less effort.

And when fighting fish, no matter how strong, it's immediately obvious that these rods have enormous reserves of power to make a real difference. This makes it much easier to pull large carp out of whatever jungle is keeping them under the water. Of course, the blank has excellent damping properties to cushion violent escape attempts with minimal effort. Plus there's less risk of your hook slipping. A dream for carp hunters everywhere!

Available in length 12ft and 13ft and casts from 2,75 to 3,75lbs.

SPORTEX REVOLT CARP

UNIQUE SPEED AND SENSITIVITY COME AS STANDARD.

REVOLT CARP

The little sister of Beyond Carp, the Revolt Carp also features our great heptagonal heptacore blank – together with the same outstanding abilities including optimal loading, fantastic casting dynamics and enormous power reserves.

You'll find yourself reaching swims you never imagined. And when it comes to the fight, this 'power rod' fully exploits its ingenious damping properties, meaning the fish gets tired quickly and won't slip away easily. Additional special features include an ergonomically designed Duplon handle, specially painted FUJI TVS reel seat, and slim SIC rings in KW style with a 50 start-guide and removable FUJI hook eyelet. The Beyond Carp is also available as a 10ft stalker version in 2.75lbs or 3lbs with a 30 start-guide. In short: everything you need for successful carp fishing.

Available in length 10ft, 12ft and 13ft and casts from 2,75 to 3,75lbs.

SPORTEX IMPRESSIVE CARP

THE NEW CARP ROD SERIES WITH THAT TOUCH OF MAGIC.

IMPRESSIVE CARP

These rods use the highest quality Japanese carbon fibres with enormous tensile strength. This gives the blank even higher loading capacity and more speed.

The whole assembly is made even stronger thanks to the special arrangement of the carbon fibres at a 45° angle. These properties ensure an outstanding performance in making long, precise casts.

The Impressive Carp also has a semi-parabolic action with progressive power distribution, giving it very good playing characteristics. The series is fitted with a FUJI DPS reel seat, high quality FUJI Alconite K long-cast guide arrangement and shrink wrap split handle. The continuous matt carbon finish at a 45° angle also provides that special 'look'.

Available in length 12ft and 13ft and casts from 2,75 to 3,75lbs.

SPORTEX ESCALADE CARP

THE LAST WORD IN CARP ROD DESIGN.

NEW

emag.sportex.de

Escalade Carp

More acceleration, more casting distance, more precision: this exclusive carp rod series sets new standards! Ultimate power comes from our heptagonal Heptacore blank, optimised with T1100 carbon fibres. Added to this are high-quality KW/KL guides with SIC inlay. In order to give even more dynamic power to the tip area, extremely light single-leg guides are used, apart from the 50mm start guide and the lowermost guide, both of which have a double leg. And to achieve the optimum balance between rod and reel, we use a DPS double hood reel seat from FUJI. This allows the centre of balance of the reel to be moved forwards or towards the rear, which adds a few additional metres when casting. In short, this is absolutely the last word for everyone who wants to fish at a distance but still be right on target. Just try it out, and be ready to be seduced.

Available in length 12ft and 13ft and casts from 3,00 to 3,75lbs and 3-5oz..

high class KW/KL SIC guides

Fuji- Double hood DPS reel seat

SPORTEX FBC CS-3

A MUST-HAVE FOR DEMANDING CARP ANGLERS.

FBC CS-3 CARP

The third generation of the FBC Series has all those special qualities that make a winner. Our latest Helicore blank, based on nanocarbon fibres with extraordinary tensile strength, makes for really outstanding resistance for playing fish and casting dynamics. The special interweaving of the fibres achieves material loading some 20 per cent higher than its predecessor. Thanks to the unique combination of the finest nanoparticles with a special epoxy resin, extraordinary power can be generated that gets the heart pumping at every cast. The progressive action when playing fish rapidly takes even big specimens to their limits and has them sliding into the landing net. All the rods up to the Stalker model come with a SIC guide arrangement, with a size 50 start guide from Seaguide, and tough Duplon handles. The angular design of the DPS aluminium reel seat and the 1K carbon mesh surface material will also catch the eye on the bank. An absolute highlight for carp anglers who only want the best. Available in length 10ft, 12ft and 13ft and casts from 2,75 to 3,75lbs.

Helicore® Blank

Alu R/S With Fuji Hoods

SPORTEX PURISTA XTF

A TOP ROD WITH BRILLIANT CASTING AND FIGHTING ABILITIES.

PURISTA XTF

A real gem from our innovative long-range rod series. The enormous speed of the blank, made of Japanese high-performance carbon with a special fibre arrangement at a 45-degree angle, is all it takes to convince anyone of the prowess of the Purista XTF Carp. Thanks to the fantastic loading capabilities and an extremely fast recovery, the tip has visibly less oscillation, which makes for considerably longer and more precise casts. And when it comes to playing a carp, the balanced action ensures fish can't give you the slip just before the net. All the models come with robust FUJI DPS reel seats, stable Seaguide SIC guides and all-round EVA handle sections. Up to the two Stalker versions, the rods have size 50 start guides. All you need for pure enjoyment on the water!

Available in length 10ft, 12ft and 13ft and casts from 2,75 to 3,75lbs and 3-5oz.

Fuji R/S

SPORTEX D.N.A CS-2

POWER RODS WITH A WINNING HERITAGE.

emag.sportex.de

D.N.A CS-2

The ultimate choice for dynamic casting and fish-playing power.

This innovative series of rods is laced with pure carp-catching DNA.

The extraordinarily fast reset, together with the slim high-performance

blank, deliver distance and accuracy when casting. Thanks to the semi-parabolic action, there are always enough reserves of power to keep even specimen fish well away from obstacles and tire them rapidly before landing. Add to that the outstandingly good damping characteristics, which absorb even the wildest head lunge thanks to the superb flexibility of the tip, and fewer fish will be lost. All 12ft models are fitted with single 3A full cork handles, while the 13ft models come with single Duplon handles. Top-quality SIC guides from Seaguide and a stable FUJI DPS reel seat add to the quality. Their fine finish makes these rods real eye-catchers too.

Available in length 12ft and 13ft and casts from 2,75 to 6,00lbs and 3-5oz.

SPORTEX MORION STALKER

GIVE CARP NO PEACE.

emag.sportex.de

MORION STALKER

These top-quality stalker models in different designs and casting weights

pack everything you need for taking on carp. The newly-designed blank

made of Japanese high-performance carbon with advanced X-Wrap

technology has enormous power, and despite its compact length, it produces impressive casting distances. Thanks to the progressive action, excellent damping characteristics are part of the package, which make for considerably fewer lost fish. The two „Breakout“ models have identical actions to our two-piece rods and, thanks to their telescopic handles, are easy to transport. Among the top class fittings are a single cork handle, high-quality Seaguide SIC guides and a stable FUJI DPS reel seat. Perfect for the bank or the boat.

Available in length 8,6ft and 10ft and casts from 2,75 to 3,50lbs.

SPORTEX CATAPULT CS-4

OVERCOMES EVERY CARP.

NEW

emag.sportex.de

CATAPULT CS-4

Take what's good and make it even better. That was what we were aiming

for when we updated the successful Catapult series. To make sure the

modified rods took best advantage of their predecessors' classic strengths,

in particular when it comes to casting performance,

we decided on a blank made of Japanese high-performance carbon, with a semi-parabolic action. Thanks to the combination of high-quality SIC guides, robust FUJI DPS reel seats, and solid split handle handles, the Catapult Carp CS-4 models have outstandingly good casting and loading properties. And, best of all, because slight errors in technique are compensated for by the excellent material, even inexperienced casters can achieve impressive results. In short, an all-round no-nonsense package which, thanks to its handle section being reinforced with spiral carbon, can overpower any carp. Available in length 10ft, 12ft and 13ft and casts from 2,75 to 6,50lbs and 3-5oz.

SPORTEx INVICTUS CARP

A BEAUTY IN OUR CARP RANGE – SLIM BUT STILL SPORTY!

INVICTUS CARP

The new INVICTUS Carp series meets the most modern requirements of the carp scene.

The blank, made from Japanese high-performance-carbon and with SPORTEx

HT-Cross-Winding technology develops enormous power in the backbone, nevertheless

the tip is sensitive. The Fuji TVS reel seat with the discreet logo and the noble finish are a real eye-catcher. All rods have slim SIC guides with

a size 50 start guide. The boat version is equipped with a 30 start guide. The design of the rear handle has been made extra slim. This rod is a

real casting machine without being too hard in the tip. A light, slim rod for a variety of uses.

Available in length 10ft, 12ft and 13ft and casts from 2,75 to 5,75lbs.

SPORTEx PARAGON CARP

THE ULTIMATE FIGHTING ROD.

emag.sportex.de

PARAGON CARP CS-2

Every fight a highlight! That's how it feels with these rods. Thanks to their classic

parabolic action, they are ideally suited for top results when fishing for carp,

both big and small. The new blank – made of Japanese high-performance

carbon with innovative X-Wrap technology – has exceptional damping characteristics thanks to its softer action. This makes playing even the toughest

carp or big tench a whole lot of fun. Plus... they don't slip away that easily. Even specimen fish can be brought under control with ease and made to tire

rapidly. A fantastic choice for classic carp lakes and other hotspots. Available with either a classic cork or slip-resistant Duplon handle.

Available in length 10ft and 12ft and casts from 2,75 to 3,25lbs.

SPORTEx COMPETITION CS-4

SUCCESSFUL CARP FISHING IN A NUTSHELL.

COMPETITION CS-4

The ever popular carp rod series has been given a complete makeover,

with a blank made using a new Japanese high-modulus carbon. The butt

section in particular has been reinforced with our tried and trusted HT

cross-winding technology. This provides the rods with even more speed, strength and resilience. The blank still features a semi-parabolic action,

with a tough backbone and exceptional damping properties. It's a perfect combination to tire out carp quickly if they put up a fight.

The Competition Carp CS-4 Series comes with slim SIC guides (type 50 butt guide), DPS reel seats, and hard-wearing Duplon handles.

Available in length 10ft, 12ft and 13ft and casts from 2,75 to 5,5lbs and 3-5oz.

The short Breakout-version is available in 10ft and 13ft and casts from 3,00 to 3,75lbs.

SPORTEX ADVANCER CARP CS-2

OUR PRICE-PERFORMANCE MONSTER!

NEW

ADVANCER CARP CS-2

A hot longstanding favourite for cool conditions: our unique anniversary rod has nailed down a place in the pantheon of modern SPORTEX rods. We have remained true to trusted techniques and kept the focus on classic design, in conjunction with minimalist colour tones and high quality fittings. A powerful blank of Japanese high-performance carbon ensures optimum loading and damping properties. And to guarantee even more power, the handle has been reinforced with a special 3K carbon matte fibre. Last but not least, the Advancer Carp CS-2 comes with slim SIC guides and a robust Duplon split handle. The ultimate choice for every carp fan who's looking for great fishing tackle on a slimline budget.

Available in length 10ft, 12ft and 13ft and casts from 2,75 to 5,50lbs.

emag.sportex.de

SPORTEX TOURON CARP

TWO RODS IN ONE!

TOURON CARP

The Touron Carp Series are four-piece rods ideal for carrying in a backpack or a small case. But despite the multiple sections, there really is nothing to differentiate between their action and that of a two-piece rod. They have comparable casting and damping properties, and they also have plenty of power reserves in the spine. Another special feature is that you can fish the Touron Carp in two different lengths. The 12ft model, if the last part but one is removed, can also be used as a 9ft stalker/boat rod. The 13ft model can be used as a 10ft version. It means you have two rods in one. The rods have slim SIC guides from Seaguide (butt guide size 50), a full EVA handle and FUJI DPS reel seat.

Available in length 12ft and 13ft and casts from 3,00 to 3,75lbs.

SPORTEX TRIUMPH CARP

THE RIGHT RODS FOR THE JOB WHEN LONG CASTING IS THE ORDER OF THE DAY.

TRIUMPH CARP

We developed these rods in co-operation with our partners in Eastern Europe where fishing from boats is largely prohibited. With the most productive spots often a long way out, rods with a lot of casting strength are needed. Every metre counts.

The same goes for international competitions. The Triumph Carp series meets these requirements with flying colours. The blank, of Japanese high-performance carbon, has enormous power in the spine; and the tip has sufficient damping properties to ensure the fish you're playing with doesn't easily get away. Casting tests up to now have achieved distances of up to 220 metres. The rods are fitted with SIC "K-Style" guides (butt guide size 50), a FUJI DPS reel seat and tough Duplon handles. A semi-transparent 1K mesh surface finish gives a superb appearance to the blank.

Available in length 13ft and casts from 3 to 5oz and 4 to 7oz.

SPORTEX LANDING NETS

CARBON-HANDLE FOR LANDING NETS

This 6ft light weight telescopic powerhandle is made from high-grade carbon for best performance and stability. Its innovative QuickFix Teleshaft allows you to easily extend and shorten the pole for best possible handling from shore, boat or when changing the net. The reinforced metal thread (British standard) perfectly works with spreader blocks and bait spoons for maximum flexibility and reliable operation.

„MORION“ LANDING NET

This 1.8m landing net is made using the same carbon material and design as the blank on our much-loved Morion rods. It is available either as a one-piece design, or two-piece with a special quick lock arrangement. This means that the net can be rapidly taken apart for easy handling, for example for use in the boat after landing. The English thread arrangement also means that the net can be easily fitted with a scoop, for example.

CARP LANDING COMPLETE (NET & HANDLE)

Strong 42" carp landing net with high modulus carbon arms incl. floating devices. The supple and deep landing net protects the fish. The 6ft long carbon handle finished with 3k carbon mesh comes with a robust net block made from cast aluminium.

SPORTEX TOP CAT

WONDER WEAPONS FOR CATFISH HUNTERS.

TOP CAT SPIN

These super dynamic lightweight rods are ideally suited for successfully chasing catfish with a whole range of lures, including wobblers, blinkers and soft baits. Thanks to the excellent loading and recovery characteristics of the robust Japanese high-performance carbon blank, long, precise casts become child's play. The handle section has been reinforced with a special carbon mesh fabric, giving the angler plenty of power to play really exceptional fish and keep control at all times. Also featured are top-quality SIC K-style long-cast guides in an anti-tangle configuration, which guarantee a flawless run of the line during casting. A top choice for chasing catfish!

Available in lengths from 8,6ft. to 9ft. and casts from 60 to 210g.

TOP CAT VERTICAL

Perfectly suited for the use of fireballs, clonk teasers and other tackle, these special catfish rods are designed for vertical fishing. The extremely sensitive blank, made of Japanese high-performance carbon, holds the bait precisely in position for Wels catfish to suck it in with no effort. The special design of the tip section allows for continuous action, and reliably conveys even the gentlest take right down to the handle. The fast and powerful backbone, with its special carbon mesh fabric, allows for a powerful lift, and rapidly takes the fight out of the fish when it is being played. The two 'standard' models come fitted with robust guides, and can be used optionally with multiplier and fixed spool reels. An Inline version with a multiplier reel seat is available too, which, due to the absence of guides and the line running inside the blank, curves noticeably more effectively under load. And that means even more enjoyment when it comes to playing the fish. Simply the BEST!

Available in lengths from 6ft. to 6,2ft. and casts from 90 to 300g.

TOP CAT BOAT

Any angler who likes fishing for catfish from a boat will love this rod. The sensitive action of the tip section does all the work when it comes to bait presentation and bite recognition. Regardless of whether you prefer to drift to where the action is or anchor on a hot spot, with the TOP Cat Boat the right tool is always in your hands. To bring the fish under control as fast as possible after the strike, the rod has an extremely strong backbone with progressive strength distribution, reinforced by a unique carbon mesh fabric. No specimen fish is going to get away from this rod in a hurry! And thanks to the special boat guides, both multiplier and fixed spool reels can be used. Putting it simply, this is how to handle catfish!

Available in length 8ft. and 9ft. and casts from 130 to 300g.

TOP CAT BOJE

This specialist catfish rod series is made of Japanese high-performance carbon for buoy and stationary fishing in still and flowing water. Thanks to the special action and guide arrangement, the line can be held under tension out of the water with exactly the result intended. When a bite comes, there is direct contact with the fish, and that means a perfect strike. Even in water where obstacles are a real problem, there are no compromises with the TOP Cat Boje. Thanks to massive reinforcement using a special carbon mesh fabric, the backbone builds up enormous pressure very rapidly and stops the catfish being able to settle. The rod can be fitted optionally with multiplier reels or fixed spool reels. Anyone fishing with this tackle really will get a grip on any catfish.

Available in length 9ft. and 10ft. and casts from 200 to 500g.

TOP CAT BOAT

TOP CAT VERTICAL

TOP CAT BOJE

TOP CAT SPIN

SPORTEX CATFIRE

POWERFUL RODS FOR CATFISH HUNTER:

CATFIRE SPIN

Excellent rods for fishing for catfish with wobblers, soft lures, blinkers etc. The tough, fast blank delivers the bait, right on target, even at long distances. The strong spine means any catfish on the hook tires rapidly and can be landed safe and sure.

Available in length 8ft. and 9ft. and casts from 70 to 190g.

CATFIRE BOAT

Designed for drift fishing from a boat.

The Catfire Boat is fitted with a tip that is sensitive yet strong, ideal for achieving perfect bait presentation under the water. For a sure strike, and ultimate control of the catfish when playing, the spine has been reinforced with a 3K carbon-mesh fabric. Improved damping properties of the blank keep lost fish to an absolute minimum. These are rods that make fishing for catfish fun; and, of course, they also produce excellent results when used from the bank.

Available in length 9,2ft. and 10ft. and casts from 150 to 300g..

CATFIRE BOJE

Special rods for buoy fishing in rivers and lakes. Their length (up to 3.3m) and stiff action helps keep tension on the line, even over considerable distances. This means rapid and direct contact with the fish right from the bite. The sensitive tip of the rod reliably signals the bite back to the bank, while the powerful spine ensures that the hook stays properly in place after the strike, and the fish can be brought to the bank or the boat as fast as possible. The 2.7m version is perfect for use from a boat at anchor.

Available in lengths from 9ft- to 11ft. and casts from 250 to 500g.

CATFIRE FEEDER

The latest update of the popular catfish feeder rod, the Catfire Feeder was designed for bottom fishing with natural bait and pellets in partnership with our catfish specialist, Jens Köller. To achieve extra speed, and get better casting distances, the spines of the rods have been reinforced with a 3K carbon-mesh fabric. We have also done a little work on the interchangeable tips. There is now a medium-heavy tip part for use in stillwater, and a heavy tip part for use in rivers and currents. These are excellent all-rounders for difficult bottom fishing for catfish and similar.

Available in length 11ft. and 12ft. and cast of 200g.

CATFIRE VERTICAL

A rod designed especially for vertical fishing for catfish from a boat. The agile blank has enormous reserves of power to tire the fish rapidly when playing, and bring it securely to the surface. A highly sensitive tip reliably signals even tentative nibbles and allows the catfish to take the bait without any resistance. The lightweight blank means the rod can be held comfortably in the hand without any problems, even over long periods.

Available in length 6ft. and 6,5ft. and casts from 90 to 300g.

CATFIRE VERTICAL HEAVY INLINER

This more powerful version of the Catfire Vertical has no guides. The advantage of inline rods is that, because there are no guides and the line runs through the interior, the blank bends noticeably more uniformly under loading, which means more fun when playing the fish. There is also reduced risk under full loading of a guide frame getting pressed into the blank and causing the rod to break. The action of the rod is similar to that of the Catfire Vertical, but the Heavy Inliner has an appreciably stronger spine. This is the perfect rod for when the hunt is on for big cats.

Available in length 6ft. and casts from 150 to 450g.

CATFIRE TRANSFORM

A multi-purpose rod built to thrill modern catfish hunters. Thanks to its special design, it can be used as a two-piece 2.7m boat rod for effective use in open water or as a three-piece at its maximum length of 3.2m for successful bank fishing. Nothing is more practical or more flexible. Put it another way: superbly simple and simply superb!

Available in length 10,6ft and casts from 150 to 300g.

*all CATFIRE rods
including a
detachable EVA-gimbal*

SPORTEX MAGNUS MASTERGRADE

THE LORDS OF THE SEAS.

MAGNUS MASTERGRADE

Incredibly powerful and versatile sea rods for various fish (e.g. in the Mediterranean sea) to fish from boat and shore. This premium rod range includes best in class GT Popper and Tuna Spin rods as well as Jigging and Seacast rods.

This series is available in lengths from 6,3ft. to 9,6ft. and casts from 80 to 250g.

SPORTEX HALIOS

THIS 'PILK' ROD IS A CUT ABOVE THE REST, IN PERFORMANCE AND PRICE!

HALIOS

If you are looking for a reliable but inexpensive pilk rod, you have found it here. The fast and resistant blank made of Japanese high-modulus carbon cuts a fine figure on every boat. The sensitive tip part ensures ideal bait control and reliably indicates the bite. The semi-parabolic action provides sufficient power when chasing halibut, cod, coalfish, pollack to safely hook and bring them to the surface. Equipped with a DPS reel seat, solid SIC guides and robust Duplon handles, this series leaves nothing more to be desired.

Available in lengths from 8ft. to 10ft. and casts from 70 to 400g.

SPORTEX MAGNUS SEAMASTER

MUCH MORE THAN JUST A SEA ROD.

BOAT

Maximum power and flexibility on board! For decades the Magnus Seamaster Boat series has stood for ultimate reliability and enjoyment. Our innovative new format, with its top quality fittings, now goes a step beyond. Regardless of whether we're talking natural bait fishing for redfish, ling and tusk, or lure angling for halibut, the powerful blank can take on any fish in the sea. The top-of-the-range fittings include special boat SIC guides, robust Seaguide reel seats and high quality Duplon handles in a stylish camo format. As well as this, all the models feature a cross-gimbal design from Pac-Bay, protected by an EVA closure cap. Thanks to the special boat rod guide arrangement, we recommend the use of a multiplier reel. For all stationary-bait fans, the MB2132 is a model with something really extra, with rod guides to match.

JIGGING

Make light work of heavy duty spin fishing. This unique series of rods was developed for going after pollack, wolffish, cod, ling and halibut. All the models have sensitive tip actions, which allows for controlled lure guidance with intensive bite detection. This allows for a natural presentation in all layers of the water column. The 20lb version is perfectly set up to fish different lures or natural bait rigs of up to 300g in shallow water up to 50 metres deep. For anyone wanting to use lightweight pilker lures and natural lures up to 500g in medium depths at around the 100 metre mark, the universal 30lb model is the best choice. The 50lb models have been developed for heavy natural bait fishing for ling or rock fish, or XXL lure fishing in strong currents or drifting in depths of up to 300 metres. The Magnus Seamaster jigging rods are fitted with a cross-gimbal from Pac-Bay, including an EVA closure cap. Because of the special lowrider guide arrangement, we recommend a multiplier reel. For those who prefer stationary-bait fishing, the best bet is to go for the 30lb MB2221 model, which was designed specifically for this purpose.

SLOW JIG

Fish playing... in the best possible way. Anyone looking for a robust and reliable spinning rod for effective vertical fishing with lures weighing up to 80g or 120g will really be inspired by our Magnus Seamaster Slow Jig models. The lures can be guided slowly or with rapid, drawing movements, whichever you want. In such situations, the highly-elastic blank really does its job even when big fish are on the line.

SPIN

A fast all-rounder right from the start. These versatile spinning rods were developed especially for lure angling for halibut, cod, pollack and similar species. And of course, the compact power package is also ideally suited for lightweight pilker lures weighing up to 160g fished from the boat, with little drift and a maximum fishing depth of 50 metres. Even herring and mackerel paternosters can be used effectively with our Magnus Seamaster spin models.

TRAVEL (BOAT / JIGGING / SPIN)

Mega power in a mini format. Our practical short-section Magnus Seamaster Travel models are available as boat, jigging and spin versions, in different lengths, and can be stowed in ordinary luggage with no problem at all. All the rods have an almost identical action to their two-part counterparts, and produce the same top performance on the water. And of course they come delivered in a super-strong transport tube.

This series is available in lengths from 6ft. to 15ft. and casts up to 200g / 20 to 50lbs.

Dimensions transportation tube:

- 3-piece / Jigging / approx. 81cm
- 4-piece / Boat and Jigging / approx. 74cm
- 4-piece / Spin 245cm / approx. 79cm
- 4-piece / Spin 275cm / approx. 86cm

SPORTEX SYNORIS FLY

WE CALLED ON 12 YEARS OF EXPERIENCE AND EXPERTISE IN THESE RODS.

SYNORIS FLY

Proprietary Helicore technology from Sportex fuses state-of-the-art T1000 carbon fibres with a resin enriched by nano particles to create a highly-responsive, well-balanced and powerful blank.

Synoris Fly Rods effortlessly and accurately cast extreme distances -beyond the limits of other fly rods - yet giving the firm assurance that this rod still has plenty more to come. They are excellent for overhead, roll and switch casting, and will deliver dry flies as perfectly as nymphs and streamers. They will also make the toughest of strikes and play the biggest fish with ease. The exclusive blank design features a matt finish in silver-grey and is enhanced with an extra light-weight aluminium reel seat with carbon-inlay. Hard-chromed snake guides, convenient marks to align the rod sections and a classy cork handle complete the impressive aesthetics on this premium rod series.

Available in lengths from 8,6ft. to 10ft. Line classes from 3 to 10.

SPORTEX KYANITE FLY

THE IDEAL ROD FOR AMBITIOUS FLY FISHERMEN.

KYANITE FLY

The superlight HM carbon blank is created with all the quality and precision associated with the Sportex brand. It performs with absolute harmony, is forgiving of mistakes but also powerful -

and can surprise even the most seasoned caster. Whether overhead casting, switch casting or roll casting, Kyanite Fly rods create extra tight loops that are equally targeted and precise. In the lower line weights, the rods are perfectly adjusted to the fine-tuned requirements of delicate fishing with dry flies and nymphs, while the more powerful models love heavy streamers and relish tackling bigger pike, asp and sea trout. The Kyanite is an absolute joy to use and has the scope to do so much more than other rods in the same class. The matt green blank comes with perfectly matched snake guides, a very light aluminium reel seat with wood inlay and a high quality cork handle.

Available in lengths from 8,6ft. to 10ft. Line classes from 3 to 8.

SPORTEX DUFFEL BAG

DUFFEL BAG

Four additional pockets, which can be attached in any combination using the click system, enable the angler to quickly and easily adapt to the particular situation on the water. Made from highly resilient TPU material, the duffel bag is very resistant to wear, kink and tear. The material is also waterproof and weatherproof. Available in two sizes (M and L), the duffel bag comes as a basic version without the additional pockets or as a full version including the expandable pockets. The shoulder straps can be stowed away in a back pocket and additional handles quickly transform the duffel bag into a travel bag for leisure.

SPORTEX ROD CASES & BAGS

ROD BAG SUPER-SAFE FOR 1 RIGGED ROD

The perfect protection for your rod.
From 125 cm up to 165 cm. With Rucksack function.

SPOON BAG FOR 2 RIGGED RODS

Perfect protection for transporting two fully assembled spoon rods to the fishing spot. Particularly suitable for short rod grips. A padded partition in the middle prevents the rods from damaging each other. Additional padded shoulder straps make it easier to carry the bag. 115cm

ROD BAG SUPER-SAFE FOR 2 RIGGED RODS

Elaborate SUPER SAFE rod case with padded inner sections. From 125 cm up to 165 cm. With Rucksack function.

ROD BAG SUPER-SAFE

with 3 compartments for 3 rigged or several unrigged rods. Outstanding padded lining for total reliability. Padded shoulder strap and high-quality zip fasteners as for all SUPER SAFE models. With Rucksack function. From 125 cm up to 190 cm.

XXL ROD BAG FOR 4 RIGGED OR SEVERAL UNRIGGED RODS

Three well-lined inner sections. A real safe for your valuable rods. With Rucksack function. Length: 165 cm.

ROD BAG WITH 2 TRAYS FOR 2-4 RIGGED RODS

The SUPER SAFE Multi-talent with 2 trays for ready rigged telescopic or standard rods. Long outside bag for net, umbrella, etc... and 2 extra tool Bags. With Rucksack function. From 150 cm up to 190 cm.

THE PERFECT SUPER-SAFE ROD TUBE

It is part of an angler's basic equipment. You cannot protect your rod in a better way. From 150cm up to 165cm.

SUPER-SAFE ROD TUBE FOR ONE RIGGED ROD

The SUPER SAFE lining is padded on the inside. An integrated, special reel box facilitates the insertion of the complete assembled rod. At home, simply hang your assembled equipment by the hooks. Perfect! From 125 cm up to 165 cm. With Rucksack function.

All bags and rod tubes:
Material: 70% Nylon, 30% PVC

SUPER-SAFE HARD SHELL BAG FOR CARP RODS 12" & 13"

A high-end bag for your carp rods, especially designed for best possible protection of rods and reels. Both separated rod-compartments, with embedded shock resistant inner-shell, offer enough space for one rod with reel each. Inside, the bag is very well padded and each rod can be individually fixed to allow best possible protection of your rods. Even size #50 guides and large big pit reels are no problem. A long extra side pocket offers enough space for an umbrella, landing net or bank sticks. Two additional side bags are available for your accessories.

SINGLE SLEEVE FOR CARP RODS 12" & 13"

Our single sleeves in 12' and 13' for the safe transport of single, mounted rods. The durable outer material as well as the strong inner padding allow for an excellent protection of your rods. The reel-part was especially designed for large big pit reels. Obviously, rods with size #50 guides fit in comfortably as well. Using the karabiner at the side, several sleeves can be connected.

SUPER-SAFE BAITCAST ROD TUBE FOR AN ASSEMBLED ROD

This Super-safe rod tube for an assembled bait-cast rod is the ideal choice when you need to protect a single-piece rod and reel from impact damage. The length of 2.10 m will accommodate most conventional bait cast rods.

CARRYALL BAGS

SPORTEX has designed these top-quality Carryall bags for use in all weathers. A special PVC surface material, waterproof zip fasteners and waterproof base shell make them the ideal choice for protecting your fishing accessories against the wet. Carryall Bags have a spacious, padded interior compartment and three additional outside pockets. A padded carrying strap and two EVA carrying handles on the side make light work of carrying the bag, even when it's full.

SPINNING BAGS

The perfect bags for the most avid lure anglers. A high quality PVC finish, amply dimensioned overlaps and waterproof zippers reliably protect the interior from moisture in all weather conditions. The premium bag easily holds two extra-large lure boxes and offers separate pockets to tidy stow pliers, hook removal or any other accessory. The basic version (no side pockets) features a mesh pocket in front and a Velcro-strip flap for fast and easy access.

EVA BAG

Material 100% EVA, Extremely robust, waterproof, foldable, easy to clean! Does not take on any odors!
